booking to stay

The KPS Trebullom respite, retreat, training and housing solutions will be provided **365 days a year**.

To book a stay with us at KPS Trebullom, we will need some information from you. Both booking and referral forms can be found on our website, or you can request one using the contact details below.

You should approach your social worker, clinical nurse specialist or other professional party (*i.e. a Local or national HIV Support charity or similar support organisation*) to discuss the availability of help with respite funding in your area. As our referral process is quick and simple your advisor can help support you through the very flexible process. Should funding help be unavailable in your area, they may be able to access charitable trust funding on your behalf. You can of course self-refer yourself, but in doing so you may incur the liability of the respite charges.

Respite, retreat, training & housing solutions
KPS TREBULLOM

service provision

Cornwall's best option

service standard

This service provides respite and retreat support to individuals or households requiring support because they are vulnerable and have a support need in relation to living with HIV.

Respite & Retreat support

The confidential and empathetic provision of a respite and retreat service for vulnerable people living with HIV and AIDS and their carers which achieves the objective of improving or maintaining independence.

The service is intended to provide specialist support particularly in times of crisis. To enable people to assess their independent living/life skills and to develop necessary skills through the provision of advocacy or referral for suitable training and support.

Effective liaison with their Department of Adult Social Care, Children's Services, Health Services, Youth Offending Team, National Offender Management Service and other statutory and voluntary organisations who may be a source of referrals or provide other services to service users.

Current prices for our Respite and Retreat Breaks are on application and detailed on our website.

Bedroom Suites

housing law & rights

Advice and advocacy on homelessness legislation, local authority and other landlord lettings policies, tenant/landlord law, communal property rights, anti social behaviour action and processes for seeking possession and eviction.

practical support

Support with DWP benefits, in particular housing benefit, Income Support and JSA, DLA, and related premiums. Assisting people to access Social Fund and other grants and loans, affordable furniture and the provision of adequate support in moving and resettlement.

other advice & advocacy

Support with money advice and debt management assistance. Support and assistance in negotiating with utilities, landlord and private companies to manage personal debts.

Conservatory & Dining Room

Drawing Room

Those eligible to receive the service will be people who are living with HIV and their carers who have specialist support needs, are homeless and/or at risk of losing their home, are moving on from supported housing or a family home to independent living, and are unlikely to sustain their independence without support.

KPS have the necessary knowledge, skills and experience of a variety of support needs and of working with people living with HIV and their carers.
